4.1. Detailed packaging requirements	24
4.2. Pallet format requirements	25

1. Product Data file

Each row in the data import template represents a physical product type (variant). All information needs to be provided in the **English** language.

Note: Variants belonging to the same style/parent item CANNOT have the same combination of color, size, length, and variant fields, see the example below.

- 1) ~~"Body Lotion"; Size/Vol: "100ml"; color: "Ocean Blue"; Variant: "No Variant";~~
~~EAN: "123";~~
- 2) ~~"Body Lotion"; Size/Vol: "100ml"; color: "Ocean Blue"; "; Variant: "No Variant";~~
~~EAN: "456."~~

Here is an example of how it should be:

- 1) "Body Lotion"; Size/Vol: "100ml"; color: "Ocean Blue"; Variant: "SPF 40"; EAN: "123";
- 2) "Body Lotion"; Size/Vol: "100 ml"; color: "Ocean Blue"; Variant: "SPF 60"; EAN: "456".

1.1. Mandatory Item Attributes

The below-listed attributes are mandatory for all items to enter the system. This information is needed for order placement.

1.1.1. EAN/UPC Code

- Each unique variation of a style must have its unique barcode: EAN-13, UPC, or EAN-8 code. Please note that EAN13 cannot start with '0'.
- A foundation in matte and shimmer cannot share the same barcode.
- EAN codes sent in the data-order template must match the barcodes on the product as we use hand scanners at the warehouse.

1.1.2. Style/Display Name

- The name of the whole style will be displayed in the webshop and referenced in search functions.
- The name should not contain size and color indication.

- It should be in English and no longer than 60 characters. Refrain from abbreviations, slang, and other language letters that could confuse the customers Ex: 'Black liquid E/L'.
- Our system only allows one style/display name for each style number.

1.1.3. Style Number

- Unique number for each style. It is also known as SKU.
- Ex: "123456789" – No limit to number of digits or letters used.
- Only digits and letters are allowed and do not contain dots or spaces (replace these with dashes).
- Different variations of style that have different style numbers are grouped manually to appear together on site. E.g. Foundation Medium style number 111 and Foundation Light style number 222 will be imported to the system as different styles but will be grouped and appear together online.

1.1.4. Brand

Please include the brand name as agreed in the contract.

1.1.5. Brand's Color Name

It is crucial to display the exact color name provided, as many customers search for specific shades or nuances they have used before. This full-color name, which also appears on the product packaging, should be shown in the webshop. For example, nail polish in the color *Rose Sky* should not be translated to Pink, but displayed as *Rose Sky*.

1.1.6. Boozt Cosmetics Color Code

Please select the color code that comes closest to the item color. Only use one of the following codes. This will be used to filter products by color in the webshop.

- | | |
|-----------------|---------------------------|
| • 1001 - Cream | • 1012 - Black |
| • 1002 - Beige | • 1013 - White |
| • 1003 - Pink | • 1014 - Silver |
| • 1004 - Blue | • 1015 - Gold |
| • 1005 - Green | • 1016 - Multi-Colored |
| • 1006 - Yellow | • 1017 - Clear* |
| • 1007 - Orange | • 1018 - Natural** |
| • 1008 - Purple | • 1019 - Navy |
| • 1009 - Red | • 1020 - Khaki green |
| • 1010 - Brown | • 1021 - Coral |
| • 1011 - Grey | • 1022 - Burgundy |

* Used for skincare;

** Used only for foundations and concealers.

1.1.7. Size/Volume (in ml/g)

- Sizes of bottles, jars, and tubes should be the net volume. This value should be displayed in ml or g, e.g. 50 ml, 50 g.
- Please use pieces when appropriate, e.g. makeup remove pads 50 pcs.
- Please use “One Size” for items like sets, electronic tools, and sex/intimacy category.
- Avoid adding extra characters such as .“ , ‘ – etc. The information will be displayed in the shop exactly as it is entered. No further edits or checks will be made.

1.1.8. Variation

Please leave the column empty if not applicable. The variant cannot be an EAN number.

1.1.9. Material composition/Ingredients

Please provide the International Nomenclature Cosmetic Ingredient (INCI) systematic names for all ingredients. List the ingredients in descending order of weight, separating them with commas. Ingredients present in concentrations of less than 1% may be listed in any order after those above 1%. Do not use abbreviations. Please make sure that no banned ingredients are present in the lists and are aligned with the latest EU regulations.

1.1.10. Item Weight (gross)

Item weight, Country ISO Code, and Customs code/Tariff code are used for export purposes, i.e. when selling to Norway and other non-EU countries. If this information is missing, the item cannot be sold outside the EU:

- Please use kilograms as the unit
- Use only the number, that is, do not write “kg”
- E.g.: 320 grams should be written “0.32”

1.1.11. Country ISO Code

- Two letter codes for the country where the item was produced.
- Please inform Boozt when the production country changes, or of cases where it may change.
- If you produce the same EAN in different countries, immediately inform Boozt.
- Please contact Boozt for a list of Country codes to be used if you are in doubt (or use <https://www.countrycode.org/>).

1.1.12. Customs Code/Tariff Code (Sweden)

Customs codes must be 10 digits and can be found at tulltaxan.tullverket.se.

Important: Customs code is validated against the Boozt Product Category (section 1.1.4). Please make sure you provide us with the customs code that is valid for the product, defined by material compositions, gender, or area of usage. Based on the definition, find the correct Boozt Product Category. See section 1.1.16.

1.1.13. Customs code/Tariff code (Norway)

Customs codes must be 8 digits and can be found at <https://tolltariffen.toll.no/>.

Important: Customs code is validated against the Boozt Product Category (section 1.1.4). Please make sure you provide us with the customs code that is valid for the product, defined by material compositions, gender, or area of usage. Based on the definition, find the correct Boozt Product Category. Note that the first 6 digits must correspond with the code stated in the Customs code/Tariff code (Sweden).

1.1.14. Gender

Please choose only one between “F”, “M” and “U” (Female, Male, Unisex).

1.1.15. Expiry date on packaging (Yes/No)

Indicate YES or NO in the attribute to confirm if a printed expiration date (e.g., BBE, EXP) is present on the product's inner or outer packaging. This date format must be visible and should not be confused with the batch number or period after opening (PAO). Please ensure that this information is accurate, as providing incorrect information may result in penalties.

Important: Please note that as per the trade agreement, we do not accept goods that are expiring within 18 months.

1.1.16. Recommended Retail Prices

- Recommended retail selling price including VAT in all Nordic currencies.
- If the prices are displayed on the product packaging, it should match the prices provided in the data order template.
- It should have a maximum of two decimal places.
- Cells with price data need to be formatted as numbers and not as text.
- All variants belonging to one style must have the same price.

Recommended Retail process should be given for the following markets:

- Denmark (DKK)
- Sweden (SEK)
- Norway (NOK)
- Finland (EUR)
- Island (ISK)

Note: Please do not enter the wholesale price here. It should always be the retail price that the consumers are to pay.

1.1.17. Original purchase price

You need to fill in the Original Purchase Price excl. VAT for us to be able to place orders.

1.1.18. Buying Currency

Indicate the currency in which we have agreed to pay invoices. The currency on the order confirmation and invoice should match.

1.1.19. Boozt Product category

Please choose from one of the listed product categories established by Boozt. This is important as it will be used for automatic categorization and thus will ensure that the product is prepared to go live on-site as soon as it gets in stock.

Important: Boozt Product Category is validated against customs codes. In addition, key data requirements are aligned based on the Boozt product category (see section 2.1). Please make sure you choose a category corresponding to the correct customs code.

- | | |
|--|--|
| • Hair care (e.g. shampoo, hair spray) | • Makeup (NOTE: not foundations, CC cream, BB cream, concealers) |
| • Hair brushes | • Foundation (e.g. CC cream, BB cream, concealer) |
| • Accessories (hair accessories such as ties, clips, guasha, etc.) | • Beauty electronics (e.g. containing battery, blow dryer) |
| • Beauty accessories (e.g., face rollers, sponges, scrub mitten) | • Perfumes (e.g. EDP, EDT, hair mist if contains alcohol) |
| • Sets (e.g. gift sets, advent calendars) | • Sex/intimacy |
| • Shaving products (e.g. razors, hair removal cream, wax) | • Self Tan |
| • Deodorants | • Beard care |

- Home & Spa (e.g. room scents, scented candles)
- Oral care
- Body Care (e.g. body lotion)
- Perfume set (sets that contain at least one item with alcohol in INCI)
- Skin care (face)
- Nail care tools (e.g. scissors, files)
- Makeup tools (e.g. makeup brush, palette, eyelash curler)
- Nail polish (includes gel nail polishes, nail polish removers)

1.2. Category-specific Key attributes

The table below contains key data attributes required for each Boozt Product Category mentioned in [section 1.1.19](#). This information must be provided before the item is published on Boozt.com.

Product Category	Key Attributes
Skin Care	Skin Type, Skin Concern, Benefits, Product Description*, How to Use*, Colli Size, Product Series,Launch date
Body Care	Benefits, Product Description*, How to Use*, Colli Size, Product Series,Launch date
Hair Care	Hair Type, Hair Concern, Benefits, Product Description*, How to Use*, Colli Size, Product Series,Launch date
Makeup	Hex Color Code, Product Description*, How to Use*, Colli Size, Product Series, Formulation,Launch date
Shaving products	Product Description*,How to Use*, Colli Size, Product Series,Launch date
Deodorants	Storage of Products (UN Codes), Flash Point, Colli Size, Product Series, Launch date, Perfume Notes Filter

Perfumes	Perfume Notes, Fragrance Family, Storage of Products (UN Codes), Flash Point, Product Description*, Colli Size, Product Series, Launch date, Perfume Notes Filter
Beard Care	Product Description*, How to Use*, Colli Size, Product Series, Launch date
Self Tan	Product Description*, How to Use*, Colli Size, Product Series, Launch date
Beauty Electronics	Battery Included (YES/NO), Product Description*, Colli Size, Product Series, How to use*, Launch date
Home & Spa	Product Description*, Colli Size, Product Series, Launch date
Sex/Intimacy	Battery Included (YES/NO), Product Description*, How to Use*, Colli Size, Product Series, Launch date
Beauty Accessories	Product Description*, Colli Size, Product Series, Launch date
Nail Polish	Storage of Products (UN Codes), Flash Point, Hex Code, Product Description*, Colli Size, Product Series, Launch date
Hair Brushes	Product Description*, Colli Size, Product Series, Launch date
Makeup Tools	Product Description*, Colli Size, Product Series, Launch date
Nail Care Tools	Product Description*, Colli Size, Product Series, Launch date
Foundation	Hex Code, Product Description*, How to Use*, Colli Size, Product Series, Finish, Coverage, Launch date

*Please submit text in English and all languages of the markets where your products are sold. English text is required when at least one local language translation is provided.

1.2.1. Product Description

Product descriptions are added for each item even if it is a color or size variation of the same style. The descriptions provided help us add relevant tags that inform the customer of the product attributes. To ensure customers can make quick and informed decisions, please keep the following points in mind:

- Please provide product descriptions in all languages of the markets in which your goods are sold.
- English - Product Description and description in at least one Nordic language are mandatory. If any of the Nordic language descriptions is missing the English language description will be prefilled.
- If your goods are sold in the Baltic countries, please provide translations of descriptions in all the 3 languages.
- Avoid including color, size, or pattern (unless the pattern is the same on all variations).
- If text should be divided into paragraphs, please use the symbol
 to signify a line to jump below.
- All product descriptions should be as per the EU Legislation regarding Cosmetic product descriptions. Please refer to the link:
<https://eur-lex.europa.eu/legal-content/EN/TXT/?uri=CELEX%3A32013R0655>.

1.2.2. How to use

Product usage instructions should be written in the local language for each market where the product is sold. Please provide an English version in the "How to use" column if the local language instructions are unavailable. Use the symbol
 to indicate a paragraph break within the text.

1.2.3. Colli size

Colli designates the smallest packaging units of a consignment of goods. Also known as master box quantity or b pack quantity. This number will affect order quantities.

E.g. If Boozt can order any quantity, please indicate 1 in colli size column. If mascara xxx is only shipped in sets of 6 therefore the order quantities should accordingly be 6, 12, 18, etc., and the colli size should be 6.

1.2.4. Hex Color Code

To display an image of the exact color of the product, please provide the hex color code.

- Do not use '#' before the code, e.g.: should be **000000** and not **#000000**.
- If an item has several colors, such as an eyeshadow palette, please list all hex codes, separated by a comma. Please note that this only applies for a maximum of 8 shades, if there are more than that, an image of the product will be displayed instead of a color dot.

1.2.5. Product Series

Please add the series name for the style. Product series, also known as line name.

1.2.6. Value

The customer should be able to see the total value of all the items included in a set or kit. Please show this total value in the following currencies:

- SEK
- DKK
- NOK
- EUR
- ISK

1.2.7. Contents of Sets

In the case of products sold in sets or kits, please list all products (name of the product) and volumes for each item and separate them by semicolon, e.g. Facial Soap 50 ml; Clarifying Lotion 100 ml; 2 x Shower Gel 30 ml.

1.2.8. UN code

A UN number is a four-digit number used to identify hazardous materials and articles (such as explosives, flammable liquids, oxidizers, and toxic liquids) in international trade and transport. It is important to note that a chemical may have different UN numbers depending on its state (solid or liquid) and purity (or concentration in solution), especially if these factors significantly alter its hazardous properties.

IMPORTANT: If the item has UN code the below information is mandatory:

- **Proper shipping name** - the standardized name used to identify a particular hazardous substance or article during transport. Every UN code has allowed proper shipping name values to be defined.
- **Hazard Class** - This classifies dangerous goods by the primary type of danger they present. For example, Class 3 is for Flammable Liquids.
- **Packing Group** - The UN assigns a packaging group classifying the regulated material further by the amount of risk each material possesses during transportation. There are three packing groups:
 - Packing Group 1—Greatest Danger
 - Packing Group 2—Medium Danger
 - Packing Group 3—Least Danger
- **Tunnel Restriction Code** - restrictions on the transport of dangerous goods through road tunnels. Different codes (e.g., (D/E)) signify varying levels of restriction based on the hazard of the material.
- **EmS code** - This stands for Emergency Schedules and refers to the emergency response procedures for ships carrying dangerous goods. It consists of two parts: a Fire Schedule (F-) and a Spillage Schedule (S-).
- **Limited quantity** (only for products that are a marine pollutant)
- **Marine pollutant** - This designation indicates whether a substance is harmful to the marine environment. If a substance is identified as a marine pollutant, specific regulations for sea transport apply.

Conditional:

- **Chemical/Technical name** - a supplementary identification for a hazardous substance or article, used in conjunction with the Proper Shipping Name containing n.o.s.
- **Subsidiary Hazard Class:** This indicates a secondary hazard of a dangerous good that is not the primary hazard but is still significant enough to warrant identification.

1.2.9. Flash Point Transportation

The flash point is the lowest temperature at which a liquid can form an ignitable mixture in the air near its surface. Please indicate the exact temperature aligned with the Packing Group. Validations are set as follows.

Packing group	Flash Point Transportation
1	No limitation
2	<23°C
3	≥23°C ≤61°C

1.2.10. Hair type

Hair type information will be used to categorize items into filters on site, as well as displayed in the product information. Please choose the hair type from below (up to 3 types per style):

- All hair types
- Fine/thin hair
- Normal hair
- Curly/wavy hair
- Blond hair
- Colored hair
- Dark hair
- Grey hair
- Straight hair
- Long hair

1.2.11. Hair concerns

Please add hair concerns for the item from the below-mentioned options:

- Dry hair
- Dandruff
- Damaged hair
- Frizzy hair
- Oily hair
- Thinning
- Sensitive scalp
- Hair loss

1.2.12. Skin type

Skin type information will be used to categorize items into filters on the webshop, as well as displayed in the product information. Please choose the skin type from below (up to 3 types per style):

- All skin types
- Normal skin
- Dry skin
- Oily skin
- Sensitive skin
- Mature skin
- Combination skin
- Normal to Combination

1.2.13. Skin concerns

Please add key skin concerns for the item from the below-mentioned options:

- Fine lines and wrinkles
- Oily skin
- Acne & blemishes
- Dry skin
- Visible pores
- Rosacea/Sensitive
- Pigmentation
- Dark circles
- Dullness

1.2.14. Perfume Notes

Add the perfume notes to this column. Please use semicolons to separate notes, e.g.: Top Notes: Strawberry, Violet Leaf, Ruby Red Grapefruit; Heart Notes: Gardenia, Violet Petals, Jasmine; Base Notes: Musk, White Woods, Vanilla.

1.2.15. Fragrance Family

Please add one of the fragrance families listed below:

- Floral
- Woody
- Fresh
- Oriental
- Fruity
- Aromatic
- Citrus
- Musk
- Chypre
- Amber

1.2.16. Perfume Notes Filter

Please indicate the perfume notes filter that best represents the character of the scent. Multiple values are allowed.

1.2.17. Formulation

Please indicate the consistency of the product where relevant. Some examples of formulations are: Oil, Gel, Cream, Lotion, Liquid, Mousse, Powder, Pressed powder, Mask, Serum, Balm, etc. Please do not confuse this with material composition.

1.2.18. Finish

Please provide the finish for makeup products (lipstick, foundation, blush, etc.), e.g.: Matte, Velvet, Satin, Natural, Luminous, Radiant, Shimmer, Dewy, Shiny. The information will be shown on the product site.

1.2.19. Coverage

Please provide coverage for foundations, concealers, BB, and CC cream. Please choose **one** of the values below: Full, Medium, Light, Light to Medium, Medium to Full, Buildable coverage.

1.2.20. Benefits

Product page icons will display the product benefits to customers. Up to 3 icons can be shown for each product. Please use commas to separate multiple benefits.

- Exfoliating
- Revitalizing
- Reduces eye puffiness
- Anti-aging
- Low: SPF up to 14
- Medium: SPF 15 - 29
- High: SPF 30 - 49
- Very high: SPF 50 above
- Lifting/firming
- Clarifying
- Pore reducing
- Brightens
- Waterproof
- Minimizes fine lines
- Deep cleansing
- Plumping
- Reduces dark circles
- Calms redness

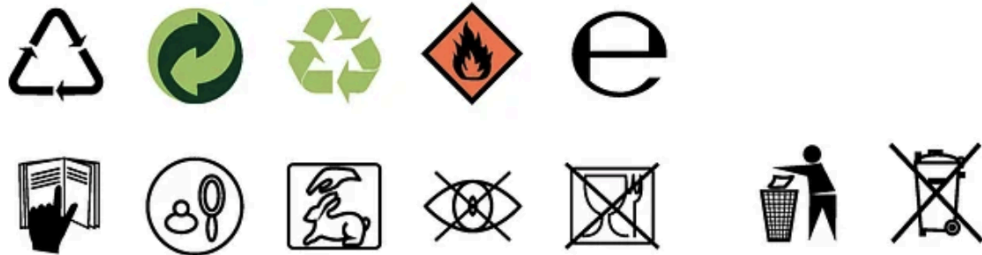

1.2.21. Launch Date

If there is a specific date when the item needs to go live on Boozt.com, please enter it here in the format YYYY-MM-DD. Please also inform the buyer so that orders are placed accordingly.

1.3. Other Attributes

1.3.1. International warning signs on packaging (yes/no)

Please indicate if the item's outer packaging has an international warning sign. Some examples:

1.3.2. Batch number (YES/NO)

Please specify if the product batch number is indicated on the outer packaging of the item. A batch number is a number and/or letter combination used to identify a set of products that share certain characteristics of the production (production time, date, etc.). If indicated "YES" you will be asked to specify the Batch number with each dispatch.

1.3.3. Dimensions

This only applies to kits that come in bags or cosmetic cases. Use centimeters as the unit (cm), e.g.: 15.5 x 11.5 x 1 cm.

1.3.4. How to use directions on packaging in local languages (yes/no)

Please specify if the product's outer packaging includes instructions in the local languages of the markets where it is sold. If not, please indicate if the packaging contains a leaflet, label, or tape with usage instructions in the local languages.

1.3.5. Multipack

This field is used for items sold in multipacks, identical items. e.g. 2-pack, 12-pack.

1.3.6. Age range

Please specify the age range that the product targets, e.g.: Teens, 20s, 50+, All ages.

1.3.7. RRP valid from

Please indicate the date from when the RRP's listed are valid.

1.3.8. Packaging dimensions

If the product comes in a box or is vacuumed, folded, or rolled, please provide the dimensions of the outer item packaging in cm, in the format "length x width x height cm" (L x W x H, e.g.: "20 x 30 x 5 cm").

1.3.9. Period after Opening (PAO)

A symbol of an open jar is usually used to signify PAO. The time in months can be inside the symbol or alongside it. Please provide the number of months that is also displayed on the packaging. E.g. 24.

1.3.10. Items sealed (YES/NO)

Indicating whether a product is sealed helps assure customers of its authenticity and aids Boozt in handling potential claims. Please confirm if the product has a seal, such as plastic wrapping, an induction cap, or a protective sticker. Answer "Yes" if any of these are present, and "No" if the product is unsealed.

1.3.11. Product Category

Please indicate the category of the product. Please be very specific, e.g.: Perfume can be categorized as Eau de Parfum, Eau de Toilette, Eau de Cologne, etc. Body Cream can be categorized as Body lotion, Body butter, etc.

1.3.12. Gift with purchase (GWP)

If an item is a gift with purchase (GWP), 0 costs, please mark it as "Yes".

1.3.13. Safety Warnings

According to General Product Safety Regulation (GPSR) there is a demand on all manufacturers, importers and distributors on the European market to visibly present any warning or safety information affixed to the product, its packaging or included in an accompanying document in a language which consumers can easily understand. Any

necessary warning or safety information should be provided in the local languages of the markets goods are sold in, so Boozt can publish it on the relevant product page of Boozt.com.

1.4. Sustainable attributes

Submit details for products certified as organic, natural, or vegan, using the sustainability datasheet. Contact the sustainability department at madewithcare@boozt.com if you have any questions. The information you provide will be used to improve product presentation to customers and assess if your products meet our sustainability criteria. By providing this information, you grant us permission to be transparent and display the data on Boozt.com. You are responsible for ensuring the accuracy of your data, which we will verify.

1.5. Beauty electronics attributes

The below-listed attributes are useful for end customers shopping for sex/intimacy or hair care tools categories.

- **Power supply** - Please enter information on how the items are supplied with power. For example, if the item is battery-operated or can be plugged into a wall outlet. If battery operated, please enter for example what type of batteries, how many, rechargeable, or exchangeable, e.g. 2 x AA batteries.
- **Battery included (yes/no)** - Please indicate with "yes" or "no" if the battery is included. IMPORTANT: battery included items require safety data as per section **1.2.8**.
- **Battery driven (yes/no)** - Please indicate with "yes" or "no" if the item is driven by a battery.
- **Battery life** - Please indicate the battery life in hours in the following format: numbers in hours (h), for example, 28 h
- **Battery Size** - the physical dimensions and often a standardized form factor of a battery. Possible values:

- | | | |
|----------|----------|------------|
| ○ aa | ○ cr2 | ○ lr1130 |
| ○ aaa | ○ 18650 | ○ sr626sw |
| ○ aaaa | ○ 21700 | ○ cr1616 |
| ○ c | ○ cr2032 | ○ cr1620 |
| ○ d | ○ cr2025 | ○ cr1220 |
| ○ 9v | ○ cr2016 | ○ cr1216 |
| ○ n | ○ lr44 | ○ Built-in |
| ○ cr123a | ○ sr44 | ○ CR1632 |

- **Battery Count** - the number of individual batteries present in a device or system.
- **Battery Capacity** - the amount of electrical charge a battery can deliver. It is commonly expressed in milliampere-hours (mAh) or ampere-hours (Ah), indicating how long a battery can supply a certain current before its voltage drops to an unacceptable level. E.g. 500 ah.
- **Battery Type** - specifies the chemical composition of the battery, which largely determines its characteristics such as voltage, energy density, charge/discharge cycles, and safety. Possible values:

- | | | |
|---------------|----------|------------|
| ● lithium-ion | ● li-ion | ● alkaline |
| ● nimh | ● nicd | |

Note: If battery type is lithium-ion, li-ion, nimh or nicd please indicate UN code 3480/3481/3090/3091

- **Power (Watts)** - the rate at which electrical energy is transferred or used. It is measured in watts (W) and is calculated as voltage (V) multiplied by current (A) ($P=V \times I$). E.g. 500 w
- **Watt-hour (Wh)** - a unit of energy, representing the amount of energy consumed or produced over some time. It is calculated by multiplying power in watts by the time in hours ($E=P \times t$). It's a common way to express the total energy capacity of a battery. E.g. 500 wh. Information is mandatory for items with UN code 3480/3481/3090/3091.
- **Charging time** - Please specify the charging time in hours, e.g. 2 hours.
- **Charger compatibility** - Please indicate which devices the charger is compatible with: Smartphone, Smartwatch, Wireless earphones
- **Charging Method** – Wireless, wired (e.g. USB cable)
- **Voltage** – This is the supply voltage required for normal brightness. Please indicate the voltage in volts (v). Example: “230 v”
- **Cord length** – Please provide the length of the lamp cord in meters. Example: 2,5 m
- **Energy class** – The energy class indicates the energy efficiency on a scale from A++ (most efficient) to E (least efficient). Example: A++, A+, A, B, C, D, E (please note that due to the latest EU regulations, the energy label for each lamp should additionally be provided to us in picture format, so we can show the energy label as the last image on our product detail page).
- **Bluetooth compatible** - Please indicate with “yes” or “no” if the item is compatible with wireless Bluetooth technology.
- **Water-resistant (yes/no)** - Please indicate with “yes” or “no” if the item resists some degree of water penetration.
- **Washing/Care Instructions** - Please indicate washing and/or care instructions for an item. E.g. dishwasher safe, hand wash only.

- **Outer packaging for a single item (Yes/No)** - Please indicate Yes/No if a single item (not Colli) has outer packaging. E.g. If the sheet mask comes packed in a 6-pack box, but the single sheet mask inside the 6-pack is also in a carton box – the answer would be "Yes".
- **Odd Size (Yes/No)** - Please indicate "YES" if the single sales unit packaging dimension exceeds 60x40x30cm and 14kg, otherwise indicate "NO". This affects how goods are handled, stored at our warehouse, and shipped to the end customer.

1.6 Import Template (data import)

To ensure efficient data management, please submit new data and data updates separately. For new product data or product data updates, please upload the data in the following ways:

- With XLS file imported via B24-system Partner Portal in "Product data".
 - The Partner Portal Guide contains further information and instructions for monitoring upload status and resolving errors. You will receive an email notification regarding the status of your upload after the data is uploaded onto the Partner Portal.
- PRICAT (EDI connection) – Price catalog/data.

Important: In case of cost and retail price updates, please upload the Price update template for approval. Please do not mix new data or data updates with price updates. Please contact your Supply Chain coordinator for the template.

1.7 Partner Portal

B2B system where you will see an overview of orders and upload product data. If not on EDI, this platform is to be used for responding to orders, uploading dispatches as well as booking deliveries. The user account for the Partner Portal is to be created by the Supply Chain coordinator. The Partner Portal Guide can be found [here](#).

2. Beauty Order Flow

2.1. NOOS order flow

Step 1. Product data is sent via PRICAT (edi.) or Partner Portal data, Product Data.

Step 2. Data is pending approval by the SC coordinator.

Step 3. When the data is approved, the order is placed and sent via edi ORDERS message or Partner Portal with the status “Awaiting Order Response” (email sent when the order is in the Partner Portal)

Step 4: The response to the order needs to be sent via EDI, ORDRSP, or respond manually on the Partner Portal. There you can also attach the OC pdf.

Step 5: After the confirmation order is checked and approved by us. The status of the order in the Partner Portal changes to Awaiting Dispatch.

Step 6: Send DESADV or Upload Dispatch advice in the Partner Portal “Deliveries”.

Step 7: Book the delivery time slot on the Partner Portal.

Step 8: You can ship the goods to us.

2.2. Replenishment order flow

Replenishment orders are placed bi-weekly. The above-listed steps 3-8 are repeated.

2.3. Gift with purchase (GWP) order flow

The order flow for GWPs is identical to NOOS as listed under section **2.1**.

GWP Data requirements:

- The product name must contain “GWP”
- All mandatory data fields are listed in section 1.1. Should be provided
- They can be the same as RRP.
- Attribute “GWP Yes/No” should be “YES”

If the product that is about to be a GWP is in the NOOS assortment, please make sure that the GWP:s is labeled so that we can separate the items at the warehouse. Ideally, these items should have a separate EAN code.

If the GWP is included in a hard launch or other campaign, please make sure that the shipment reaches us in time.

Important: samples do not need to be included in an order, but the boxes they are delivered in need to be labeled clearly with the sign “SAMPLES”.

3. Dispatch Advice and Delivery Information

Each shipment must be booked in advance. This can be done by uploading dispatch advice via the Partner Portal or sending DESADV file for EDI connection (please see the Partner

Portal guide for more information). Dispatch Advice should contain the following information:

- Dispatch Advice Number – delivery note/packing list number. This must be unique for each shipment, with the number visible on the invoices
- EAN Code – write EAN code of each packed item
- Quantity dispatched – write packed quantities of each EAN code which is included in the upcoming shipment
- Purchase order number – your order confirmation number
- Boozt Purchase order number – our reference provided to you by our buyer
- Dispatched Date – the date when the shipment will leave your warehouse
- Scheduled Arrival Date – the date when our warehouse should expect to receive the shipment
- Carton ID – Serial Shipping Container Code (SSCC) or Track & Trace Number as a unique tracking number for the shipment. Please use section 2.2 for references.
- Shipped from – provide the country goods are sent from
- Expiry date - Please provide the expiry date for the individual items in the dispatch if the expiry date is visible on the packaging of the item.

Important: The dispatches for shipments to Emporia Beauty by Boozt store must be uploaded no later than 24 hours before planned delivery.

3.1. Delivery time slot booking

After uploading dispatch advice or sending DESADV, but no earlier than 3 days before the delivery window for the order is opening, the delivery time slot needs to be booked in the Partner Portal for online orders. Shipments that arrive without booked time slots are charged penalty fees as per the VAS catalog. Please find the detailed guide on how to book the time slot [here](#).

Important: Beauty by Boozt store orders do not need delivery time slot booking.

Our delivery address at Ängelholm, Sweden (Boozt Fulfillment Centre):

Boozt Fashion AB

Produktionsvägen 10B

26278 Ängelholm

Sweden

Our delivery address to the Beauty by Boozt store in Hyllie, Emporia shopping mall:

Emporia Godsmottagning c/o Beauty
by Boozt.com
Hyllie Stationsväg 22
21532 Malmö

4. Item Packaging

- Each item must be individually packed for product protection during handling, transportation, and storage. Items must be packed separately and in a condition, ready to be shipped to End Customers.
- Each item must have a scannable, black-on-white, EAN or UPC barcode on the outer packaging. Also, make sure that the style number and color are displayed on the outer packaging.
- All components of a set must be sent as a packing unit. One set only may have one single barcode.
- All products should have a clear product visible outside the 'Ready to Ship' packaging for easy scanning. This must match the information contained in the main product data sheet. It may contain a maximum of 84 characters.

4.1. Detailed packaging requirements

- The items with the same EANs and batch code must be packed in one (1) box rather than separating into several boxes in the whole shipment, e.g.: if the order is for 8 pcs for a foundation with color E of style ABCD with EAN 9878767656549 and batch code A123, it should be put in one box and not split into 3 different boxes.
- If the box contains different EANs, they need to be separated for easy delivery.
- Each box must be labeled with a UN code outside the box.

Important: it is very important to have this information outside the box to separate the items for mandatory storage requirements. If the box contains flammable items, please mark them with the logo.

4.2. Pallet format requirements

- Goods should only be stacked to a maximum height of 1.8 m including the pallet. BFC reserves the right to refuse the acceptance of pallets that are stacked higher than 1.8m.
- All pallets should be secured with transparent shrink-wrap and, if possible, an additional sealing tape.
- Note: All boxes/pallets must be labeled with the Boozt Advice Form before it is shipped unless they contain the scannable label with Serial Shipping Container Code (SSCC) or Track & Trace number.
- Boozt Advice Forms (provided to print after dispatch advice is uploaded) as well as SSCC and Track & Trace labels should be located and faced outside from a pallet to enable efficient and direct box scanning when pallets loaded with boxes arrive at the warehouse.
